

Mutt-i-grees® Curriculum Activity: Grade 7,8

# Call to Action

## PROCEDURE

There are many social issues to feel passionate about. Let's brainstorm some... (Animal abuse, environmental concerns, recycling, hunger, poverty...) Break students into groups and have them research social issues that concern them the most. Have each group present their findings to the class and discuss why they chose the issue they chose. Include the research in their Mutt-i-grees® Files.
